give trial

Every staff to have a password.

Work at the registry has been better. Easy to use

The innovation is good it makes work easier

It's is a good innovation. It makes work easier.

Good

It's superb security password needed

Good

Excellent ideas it has indeed facilitated by fare quick delivery of services to the wanjiku despite the limited resources available.

I support the idea strongly because we are in a digital generation.

Good.

Good innovation

Great initiative as long as data privacy is taken into consideration!

It's a noble one.

#### 4 Write down your Comment / Suggestions / Concerns on the above innovation

give trial

Will enhance speed and delivery of justice.

May be more of a hindrance to the secretary. The registry is small and loud

It will help to type proceedings very fast

It will make typing of proceedings easy.

Fairly good but it is limited to English only and is interfered with noise on the background

Superb

Good

Yet to try the same but think if put in to practice it will be of great help

I agree with the suggestion but only will work in room where no obstruction

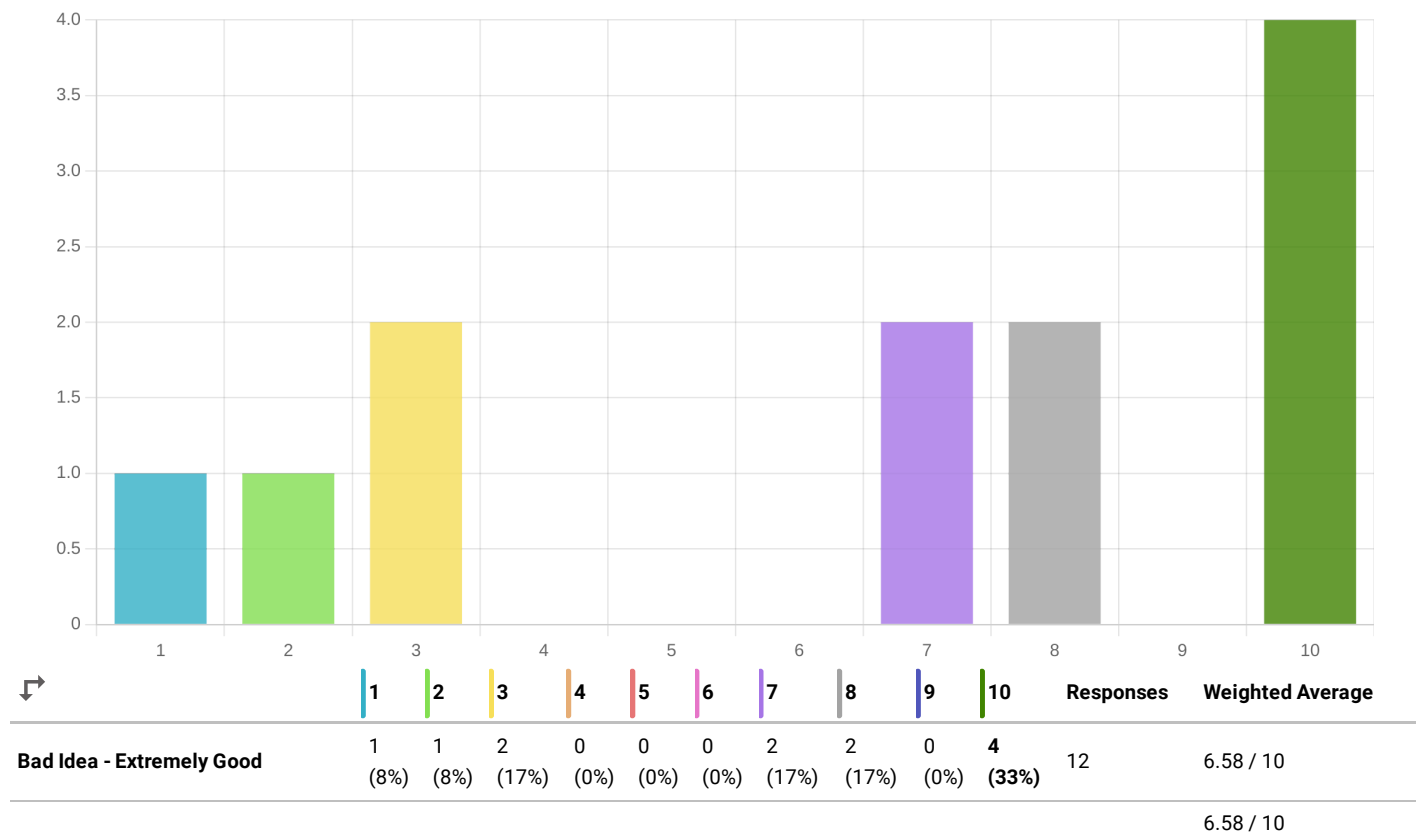

Cannot work in a shared office. Registry

Nice idea if working

Assuming the spoken word is not well captured, is one able to edit by typing?

It saves time.

Any client of the court may be able to know the exact location he /she is heading to.

Not very innovative. Earlier this year we put up a sign board directing litigants to the court. Is that an innovation?

Litigants can get access to the registry

It's a good idea since litigants shall be in a position to see direction to the registry

Good

Ok

Good

To me this doesn't feel like an innovation as the public office names ought to be abended on a strategic position for easy identification by the members of public.

Sounds more like development project

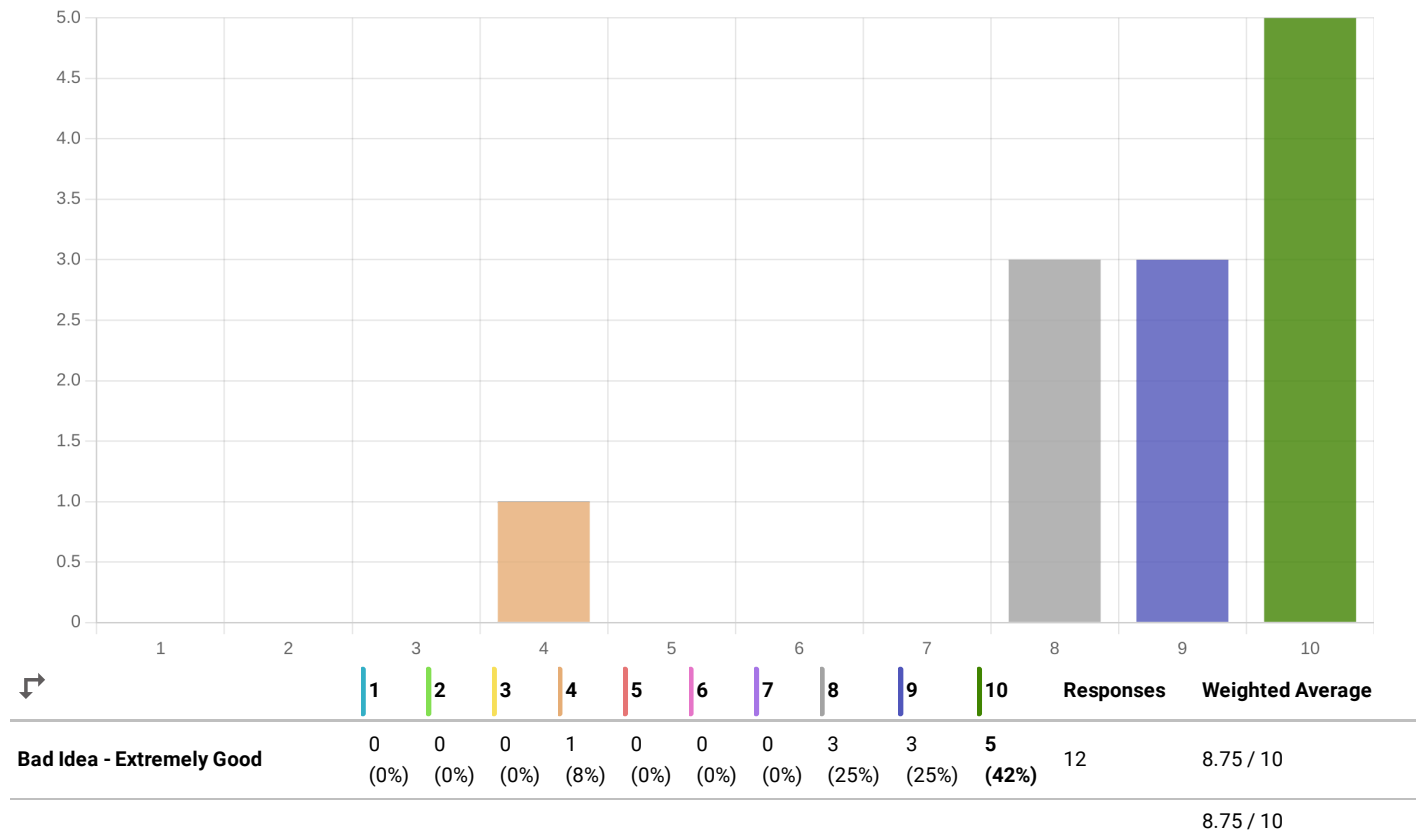

May not be innovative

This is very important for signage and directions purposes! The font should be clear though and easily readable.

This will be of great help to the litigants and will improve the fore face of the Court.

**7** Build a movable ramp to aid disabled people to access the court room easily

---

## 8 Write down your Comment / Suggestions / Concerns on the above innovation

Will enable the physically challenged to access the court.

Quick to set up but arguing the point during PMMU may be difficult

It will make the court embrace people with disabilities.

The Innovation will enable the court to embrace people with disabilities.

It is a good practice since we have challenges with the disabled people accessing the court room easily

Ok

Good

It is a good idea as the same will be of great benefit for person with disability.

Good

Will aide in access to court room

Very important and key.

This will be of great help to the litigants with disability.

---

## 10 Write down your Comment / Suggestions / Concerns on the above innovation

Tracing of any staff on duty will be easier.

Excellent idea! Why not have it as a website?

Will make staff know their duties

Good innovation since everyone will know his /her duties

Extremely good

Ok

Goood

Will of great as it will easy monitoring and enhance accountability.

Very good

Can this be done with litigants by maybe prompting them when their matters are coming up?

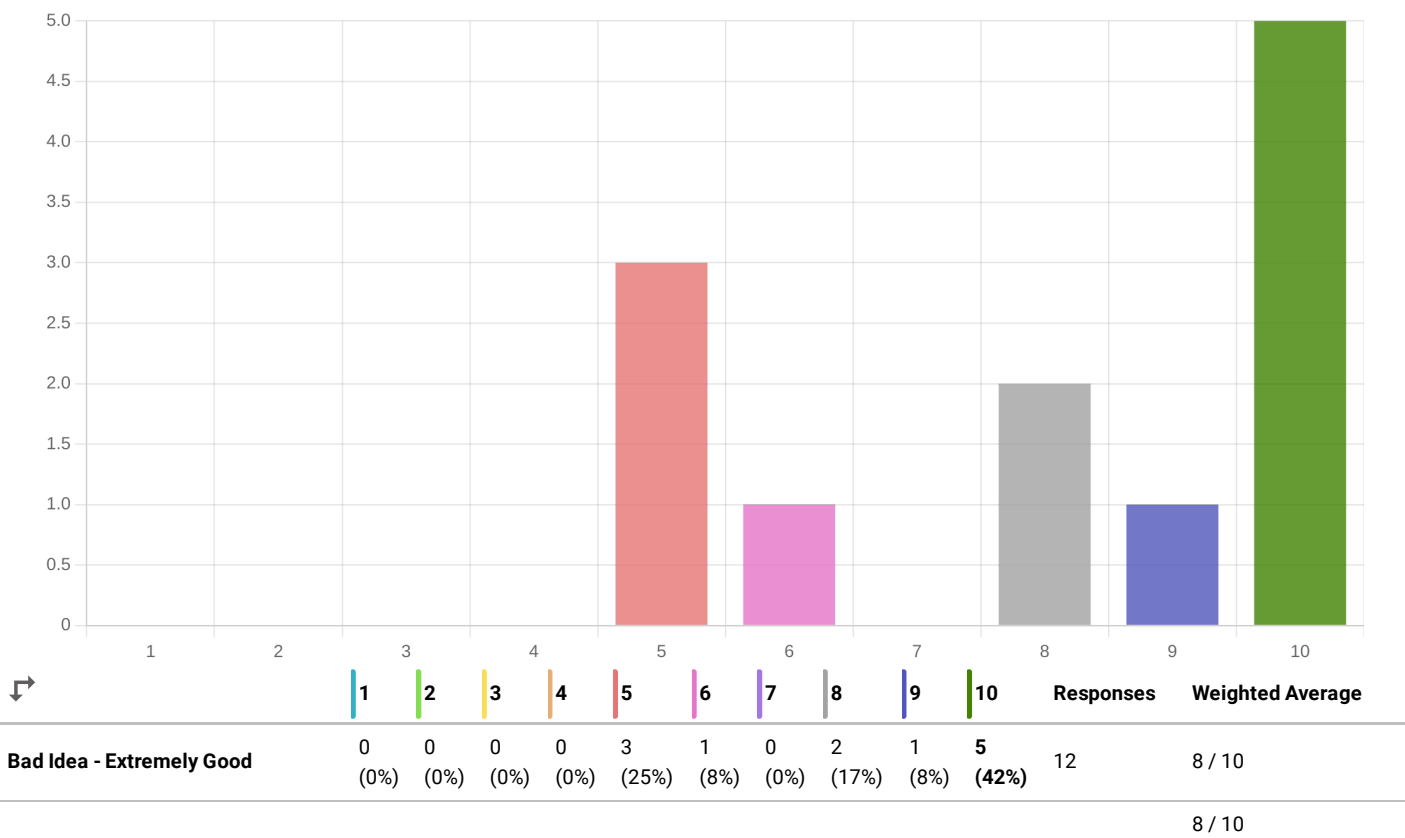

This will assist in coordination, faster delivery of services and equal distribution of duties and responsibilities.

This will help the staff greatly in doing their duties.

**11** Renovation of the Waiting Bay Area to accommodate a T.V. so that litigants are able to watch the court proceedings

8 / 10

---

## 12 Write down your Comment / Suggestions / Concerns on the above innovation

It may make the work easier when it comes to court virtual processes by cutting travelling costs but it may be a challenge for hearing matters for the clients who would wish to see the judicial officers physically.

Great idea but very long term project.

This has helped a lot because I can work on any computer on the same folder that I have saved on my computer. can follow proceedings of the court

It's a good idea since litigants shall be following court proceedings.

It is costly to install and maintain

Ok

Good

Given the limited space in our open court, the same will ensure that parties follow the court proceedings of their members.

Good

Good

This is key in enhancing access to social justice and information to a large number of people that we serve.

This will be of great help to the litigants as they will be following proceedings without entering the Court room..
